

BUSINESS ADMINISTRATION, GENERAL BUSINESS - ASSOCIATE IN SCIENCE IN BUSINESS

GBUS

Business associate degree programs in the Business and Professional Studies Department are accredited by the Accreditation Council for Business Schools and Programs (<https://acbsp.org>) (ACBSP) which attests to our high standards and excellence in teaching. Professional Studies associate degree programs and all certificate programs in the Business and Professional Studies Department have been approved through the curriculum review process at the Community College of Rhode Island and have been affirmed by the Office of Postsecondary Education of the Rhode Island Department of Education.

The General Business concentration provides students with an opportunity to develop communication, interpersonal, leadership, and teamwork skills as well as a solid understanding of the contemporary business environment. Major requirements provide a strong foundation in business and the program allows for flexibility in the elective offerings. Students also may choose to transfer to four-year institutions to earn bachelor's degrees and should consult colleges for information on transferable courses.

Available Online: Students are able to meet the program requirements with online courses. See <https://www.ccri.edu/distance/> for more information on online programs, what courses are available online, and ways to be a successful online student.

Note: Many courses require prerequisites, corequisites and/or testing. See course descriptions for details.

the courses that best prepare you for transfer to a four-year college or university.

If you are interested in transferring to Rhode Island College or the University of Rhode Island, check out the **Joint Admissions Agreement**. CCRI also has **Transfer Articulation Agreements** with colleges and universities throughout New England.

¹ Quantitative Business Analysis I (MATH 2077) and Quantitative Business Analysis II (MATH 2138) are recommended for students who plan to transfer to a four-year institution. However, math requirements vary at four-year institutions. Therefore, it is strongly recommended that students work with the CCRI academic advising team to select the appropriate math sequence for graduation and to prepare for transfer.

Transfer Options

Option 1: Complete a CCRI Business Administration degree program and transfer to one of the four-year colleges with which CCRI has transfer agreements. Course credits transfer differently from college to college. Consult with Advising and Counseling for specifics. Under the articulation transfer policy, students completing a CCRI associate in science degree in business with at least a 2.4 GPA are guaranteed admission to Rhode Island College (RIC) or the University of Rhode Island (URI). The applicability of courses toward the baccalaureate degree is determined by the receiving institution. For more information, visit www.ritransfers.org (<https://www.ritransfers.org/>) and contact your CCRI adviser. (https://www.ccri.edu/faculty_staff/advising/)

Option 2: Participate in the Joint Admissions Agreement (JAA) and take the courses in one of the approved JAA transition plans for transfer into specific business-related majors at RIC or URI. Students who successfully complete JAA requirements are guaranteed transfer of their courses and acceptance for the intended major at RIC or URI. For more information on the benefits of participating in JAA, visit www.ccri.edu/jaa (<https://www.ccri.edu/jaa/>) or www.ritransfers.org (<https://www.ritransfers.org/>) and contact your CCRI adviser.
