

# BUSINESS ADMINISTRATION, MANAGEMENT - ASSOCIATE IN SCIENCE IN BUSINESS

## MNGT

Business associate degree programs in the Business and Professional Studies Department are accredited by the Accreditation Council for Business Schools and Programs (<https://acbsp.org>) (ACBSP) which attests to our high standards and excellence in teaching. Professional Studies associate degree programs and all certificate programs in the Business and Professional Studies Department have been approved through the curriculum review process at the Community College of Rhode Island and have been affirmed by the Office of Postsecondary Education of the Rhode Island Department of Education.

Students who successfully complete the Management concentration demonstrate a fundamental knowledge of a range of management concepts and approaches. They also are able to successfully apply tools and techniques for management decision-making and can conduct research using a variety of resources, including online databases. In addition, this program assists students in developing communication, interpersonal, leadership and teamwork skills essential in today's business environment.

Management Strategy (BUSN 2070) serves as the capstone course for this concentration. The Management concentration prepares students for entry-level positions such as assistant manager or manager-in-training in various organizational settings. Students may choose to transfer to four-year institutions to earn bachelor's degrees and should consult colleges for information on transferable courses.

**Note:** Many courses require prerequisites, corequisites and/or testing. See course descriptions for details.

If you are interested in earning a bachelor's degree, please meet with an Academic Advisor (<https://ccri.edu/advising/>) who can help you select the courses that best prepare you for transfer to a four-year college or university.

If you are interested in transferring to Rhode Island College or the University of Rhode Island, check out the **Joint Admissions Agreement**. CCRI also has **Transfer Articulation Agreements** with colleges and universities throughout New England.

<sup>1</sup> Quantitative Business Analysis I (MATH 2077) and Quantitative Business Analysis II (MATH 2138) are recommended for students who plan to transfer to a four-year institution. However, math requirements vary at four-year institutions. Therefore, it is strongly recommended that students work with the CCRI academic advising team to select the appropriate math sequence for graduation and to prepare for transfer.

**Transfer Options**

**Option 1:** Complete a CCRI Business Administration degree program and transfer to one of the four-year colleges with which CCRI has transfer agreements. Course credits transfer differently from college to college. Consult with Advising and Counseling for specifics. Under the articulation transfer policy, students completing a CCRI associate in science degree in business with at least a 2.4 GPA are guaranteed admission to Rhode Island College (RIC) or the University of Rhode Island (URI). The applicability of courses toward the baccalaureate degree is determined by the receiving institution. For more information, visit Transferology (<https://transferology.com/login.htm>) and contact your CCRI advisor.

**Option 2:** Participate in the Joint Admissions Agreement (JAA) and take the courses in one of the approved JAA transition plans for transfer into specific business-related majors at RIC or URI. Students who successfully complete JAA requirements are guaranteed transfer of their courses and acceptance for the intended major at RIC or URI. For more information on the benefits of participating in JAA, visit [www.ccri.edu/jaa](http://www.ccri.edu/jaa) (<https://www.ccri.edu/jaa/>) or Transferology (<https://transferology.com/login.htm>) and contact your CCRI advisor.
