# **COMPUTER STUDIES AND INFORMATION PROCESSING, NETWORKING TECHNOLOGY -ASSOCIATE IN SCIENCE**

### CNTD

#### Knight Campus, Warwick only

Networks continue to expand in all aspects of our personal activities in business, manufacturing, education, and health care. This program provides balanced coverage of technology fundamentals, emphasis on this concentration prepares students for careers in modern office environments, focused on both client/server technologies and networking technology. Importance is placed on operating principles of programming, hardware, software, networking models, network operating systems, internetworking components, and industry standards along with hands-on laboratory activities for developing practical problem-solving skills. Students develop the ability to design, configure, secure, and troubleshoot basic local area networks (LANs) and internetworks using servers, routers, and switches. Integrated into the program are courses that prepare students to sit for both the server and networking certifications. Depending on the path taken, students can choose between networking or programming emphasis.

Note: Students enrolled in this program must earn a grade of at least C in all computer course requirements and must maintain a 2.0 GPA. Many courses require prerequisites, corequisites and/or testing. See course descriptions for details (https://catalog.ccri.edu/course-descriptions/).

### **Program Learning Outcomes**

#### Upon completion of this program, a student will be able to:

- 1. Show Preparation for international exams/Certifications.
- 2. Research information and technologies on networking, operating systems, and cybersecurity.
- 3. Translate concepts and implement them in different working business environments.
- 4. Demonstrate oral communication skills such as presentation for an audience, discussions, and debates.
- 5. Use visual aids effectively to support an oral presentation.
- 6. Demonstrate writing abilities such as reports, instructions, and documentation.
- 7. Demonstrate critical thinking in problem-solving.
- 8. Develop and demonstrate troubleshooting skills.
- 9. Comply with today's business and industry standards for networking, operating systems, and cybersecurity.

### Requirements

Code

Title **General Education Requirements** 

COMM 1010 Communication Fundamentals <sup>A</sup> HUMN; Non-Written 3 Communication; Social and Professional Responsibilities		•	
	COMM 1010	Communication Fundamentals <sup>A</sup> HUMN; Non-Written Communication; Social and Professional Responsibilities	3

### Transfer

Please meet with an Academic Advisor/Student Success Coach (https:// ccri.edu/advising/) if you are interested in earning a bachelor's degree. Your Academic Advisor will help you select the courses that best prepare you for transfer to a four-year college or university.

Check out the Joint Admissions Agreement (https://ccri.edu/jaa/) if you are interested in transferring to Rhode Island College or the University of Rhode Island. The JAA program offers seamless transfer to RIC or URI with additional benefits. Transfer information, events, and articulations are available on the Transfer Center website (https://ccri.edu/oes/transfer\_center/).
